Personal statement

A highly motivated and hardworking individual, who has recently completed their A-Levels, and currently waiting for results. Seeking an apprenticeship or internship in the computer industry to build upon a keen scientific interest and start a career as a computer engineer.

Mechanically minded, with a methodical approach to working and an eagerness to learn and develop personal skills in a practical setting. Eventual career goal is to become a fully-qualified and computer technician, with the longer-term aspiration of moving into software development.

Key Skills

- Advanced problem solving and numeracy skills.
- Accomplished communication skills, both written and verbal, developed through numerous essays and presentations given during my time at high school.
- Ability to take the initiative and work well under pressure, ensuring strict deadlines are met, as successfully demonstrated during work experience placement project.
- Flexibility, whilst maintaining enthusiasm and commitment to each project.
- Proficiency in all areas of Microsoft Office, including Access, Excel, Word and PowerPoint and other computer basics.
